

# Product manual

## Quick Start Guide

1. Open the box on the side of the packaging and retrieve the USB Wireless Receiver and 2xAA batteries.
2. Open the compartment on the back of the air mouse presenter and insert the 2xAA batteries, then securely close the compartment.
2. Insert the USB Receiver into your computer/TV's USB port.
3. Slide the POWER SWITCH on the side of the air mouse presenter to ON position.
4. Wait for a small period of time and the air mouse presenter will automatically connect to your device.
5. Start using your air mouse presenter.

## Triggering the Air Mouse

You can turn the air mouse on and off by simply pressing the  button. When on, the mouse pointer on screen will follow hand movement.

## Using the Side Wheel Function

The design of the air mouse presenter has a unique wheel function that, if pushed and held, enables you to navigate up and down. If you gently push down on the wheel you can also initiate the ENTER key.

## Technical specification:

- 17 keys
- Interface: USB 2.0
- Operation frequency: 2.4GHz RF
- Weight: 63g

- Dimensions keyboard: 120.5x37.2x28mm
- Dimensions RF receiver: 19 x 14.3x6.15mm
- Operational Range: up to 10 meters
- Operation voltage: 3.3V
- Operation current: < 30mA
- Charging current: < 300mA
- Sleep current: < 1mA

## **System Requirements**

- HID compatible device
- USB port
- Windows 2000
- Windows XP
- Windows Vista ,Windows CE, Windows 7
- Linux(Debian-3.1,Redhat-9.0 Ubuntu-8.10 Fedora-7.0 tested)
- Android OS (With standard USB interface)
- Works with Laptop, Windows, Mac, Linux, Tablets, PC's, XBOX, Android TV BOX, and HD Player
