Feature-rich app

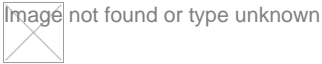

Intuitive app provides feature-rich software that monitors steps, calories, sleep, location tracking, music control, weather alerts including temperature and humidity, camera remote, alarm, stopwatch, time, date, do not disturb mode, anti-lost alert, find your phone, and sedentary alert

Advanced sleep monitoring

Advanced, in-depth monitoring of daily sleep cycles with duration, deep and light sleep. Using a device to track movements in order to measure sleep is called actigraphy. Actigraphy is often done in sleep studies using an "actigraph" device—similar to a Desire2 Coach, it is usually a device worn on the wrist that tracks movement while you're sleeping. Advanced software then translates those movements into periods of sleep and wake.

Smart notifications

Smart social media notifications, calls and messages. Share data via the VeryFitPro App with APPLE HEALTH, Twitter, Facebook, WhatsApp, Instagram, Linkedin, Flickr and many more. Manage call-handling, emails and SMS on your wrist.

Product description

Perhaps you are the kind of person who desires perfection. Perhaps you long for an object that seamlessly integrates into your active lifestyle; one designed specifically for all your favourite sports and activities.

Perhaps you are also the kind of person who desires performance, which means you strive for leading technologies, and results in stamina, functionality, and shareability.

And if you are - Then are you also the kind of person who, above all else, desires protection? Protection of your device, and protection of yourself...?

Then this - Is the Desire2 Compete Plus Advanced Fitness Tracker And Heart Rate Monitor, one of the world's most advanced activity trackers on the market.

With multiple sports modes enabling you to record your activity for up to 14 different sports including football, tennis, gym, yoga, and GPS route mapping for walking, cycling and hiking to record distance, speed, and calories, 24 hour real-time advanced photoelectric heart rate monitoring through a leading KIONIX sensor, guided breathing instruction, Smart social media notifications allowing you to share data via the VeryFitPro App with APPLE HEALTH, Twitter, Facebook, WhatsApp, Instagram, LinkedIn, Flickr and many more, plus managing emails, SMS and call-handling all directly from your wrist, the intuitive app providing feature-rich software that monitors steps, calories, sleep, location tracking, music control, weather alerts including temperature and humidity, camera remote, alarm, stopwatch, time, date, do not disturb mode, anti-lost alert, find your phone, and sedentary alert, all within a state of the art 0.96" OLED touchscreen display band with a user-friendly interface, adjustable strap, changeable home screens, 10-15 days standby mode, that is sweat proof and water resistant to IP67 certified standard, the Desire2 Compete Plus Advanced Fitness Tracker And Heart Rate Monitor could be your ultimate object of desire.
