Precision engineering

A minimalistic, modern design crafted out of a refined, premium silver anodised aluminium alloy that stylishly compliments Apple products such as iPhones. Silver anodising is an electrochemical process that converts a metal surface into a decorative, durable, corrosion-resistant, anodic oxide finish. Anodised aluminium is considered environmentally safe, producing few, if any, harmful effects on land, air, or water.

Unique magnetic control

The Escape In-Ear Headphones feature a unique magnetic control in the housing that enables them to clip together. The magnetic function is also used to turn the headphones on and off; allowing power to be saved and listening time extended when connected together. The unique magnetic design also allows the headphones to be worn connected together comfortably around the neck.

Box contents

In addition to the Escape In-Ear Headphones the pack also includes two different sized ear buds for kids and adults, two stabilisers for a more comfortable, secure fit, a nylon breathable-material drawstring carry pouch for protecting your headphones while travelling, and a USB/Micro USB charging cable that can be used in USB chargers, PCs and laptop computers.

Product description

Perhaps you are the kind of person who desires audio perfection. Perhaps you long for a pair of headphones that seamlessly integrate into your lifestyle; a pair with the kind of finish that lets your fingers lightly brush over their sleek, refined aluminium housing.

Perhaps you are also the kind of person who desires performance, which means you strive for results: Through crystal clear audio clarity.

And if you are - Then are you also the kind of person who, above all else, desires protection...?

Then this - is the Desire2 Listen Escape Bluetooth In-ear Headphones presented in sleek, refined aluminium alloy housing.

With unique magnetic control, and crystal clear APTX audio via wireless Bluetooth v4.1 up to 10 metres with in-built play controls, microphone, call-handling, two different sizes of ear buds and stabilisers, a carry case and industry-leading 3 year warranty for peace of mind, the Desire2 Listen Escape Bluetooth In-ear Headphones could be your ultimate object of desire.
