Precision engineering

Crafted from premium aluminium

minimalistic, modern design crafted out of a refined. premium anodised aluminium alloy that stylishly compliments computers and products such iMacs. Macs. and MacBooks. Silver anodising is an electrochemical process that converts a metal surface into a decorative, durable, corrosion-resistant, anodic oxide finish. Anodised aluminium is considered environmentally safe. producing few, if any, harmful effects on land, air, or water.

Tactile anti-slip rubber pads

The Stand features several built-in silicone rubber pads placed tactically on the base and top surface to keep your Laptop securely in place and prevent it from falling. Silicone rubber is a great means of providing a non-slip quality to a surface; their antislip, grip-like qualities ensuring that your stand will not only stay fixed, but will also leave no residue when removed.

Ergonomically designed

This product is ergonomically designed to improve posture maintain long-lasting health; with the ability to achieve a sufficient viewing elevation that reduces strain on your back and neck. As outlined by The Chartered Institute of Ergonomics and Human Factors, back and neck pain, headaches, shoulder and arm pain are common computer-related injuries. Such muscle and joint problems can be caused or made worse by poor workstation (desk) design, bad posture and sitting for long periods of time.
